

# BUSH BEAN-EXTRA FINE

**holland - select**  
zaden – seeds

## Compass

COMPASS is the number one bush bean variety in the extra fine segment in Europe. It is a very versatile variety that can be used for canning, freezing, and fresh market purposes. Furthermore, it can be grown in all major production areas from early until late season.

Our customers appreciate Compass for its outstanding and consistent yields. Its upright plant architecture and pods are positioned well within the plant and allow for an easy harvest with minimum waste. The pods are 13-14 cm long and have an attractive dark-green colour.

Disease package:

Bean Common Mosaic Virus V1

Anthraxnose

Halo Blight (*Pseudomonas*)

### TRIAL DATA

Maturity	+3

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900. We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
