

BUSH BEAN - FINE

holland - select
zaden – seeds

Davis

DAVIS is a variety in the fine segment with unique characteristics. It has been specifically developed for fresh market and hand picking purposes. The pods are long, have an attractive dark green colour, and good shelf life. Davis is highly resistant against Rust / Uromyces and therefore it is particularly suitable for temperate and tropical climate zones.

Disease package:

Bean Common Mosaic Virus V1

Anthraxnose

Halo Blight (Pseudomonas)

Rust (Uromyces)

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900.

We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
