

MANGETOUT - SNAP PEA

holland - select
zaden – seeds

HS 105

HS 105 is a new full leaf snap pea variety that provides good yields and beautiful uniform and 100% stringless pods. It is an early variety with a short harvesting window, making it especially suitable for mid-end of planting season. The pods remain fully stringless and have an excellent shelf life. It has a compact plant habit and is suitable for both fresh and processing.

Disease package:

- Resistance to Powdery Mildew.

TRIAL DATA

Maturity	Medium early
Pod Length	8-8.5 cm / 3-3.5"
Pod width	14-15 mm
Pod color	Dark Green
Plant type	Climbing / Trellis (Optional)
Disease package	PM

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900.

We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
