

CLIMBING BEAN - ROUND PODDED

holland - select
zaden – seeds

HS 982

HS 982 is a round podded climbing bean notable for its very attractive dark green pods. With a pod length of 12-14 cm this variety's pods are clearly much smaller compared to other climbing beans. This makes HS 982 a perfect variety for those looking for a bush bean type of pod length and climbing bean plant type.

Disease package:

Bean Common Mosaic Virus V1

TRIAL DATA

Maturity	mid
Pod Length	12-14 cm
Sieve size	8-9 mm
Pod colour	Dark Green
Plant type	Climbing
Disease package	BCMV

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900.

We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
