

BUSH BEAN - MEDIUM FINE & LARGE

holland - select
zaden – seeds

Jackson

Jackson can be easily recognised by its long and very dark green pods. This sieve size is especially suitable for the US market and can be used for both processing as well as fresh market purposes. Its slow seed development ensures a good shelf life and it has a vigorous strong upright bush.

Disease package:

Bean Common Mosaic Virus V1

Anthraxnose

TRIAL DATA

Maturity	0
Pod Length	15-16 cm / 6-6.3"
Sieve size	>10.5 mm / 5-6
Pod colour	Very dark green

Disease package	BCMV / A / Ps

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900.

We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
