

ROMANO BEAN

holland - select
zaden – seeds

Rochelle (HS 851)

ROCHELLE is a promising Romano bean variety that is notable for its very uniform and fleshy pods. It has a nice upright plant architecture which allows for an easy harvest with minimal waste. Its slow seed development ensures that the pods remain fresh for a long time. All in all, a highly recommended variety with an excellent yield potential.

Disease package:

Bean Common Mosaic Virus V1

Anthraxnose

Halo Blight (*Pseudomonas*)

TRIAL DATA

Maturity	0
Pod Length	16-17 cm / 6.3-6.7"

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900.

We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
