

MANGETOUT - SNOW PEA

holland - select
zaden – seeds

Sweet Horizon

Sweet Horizon is the number one snow pea variety. This variety is known for its vigorous plants with exceptional yields that consistently outperform other varieties. It is a late maturing variety with a wide harvesting window. The pods are fully stringless when harvested and do not suffer from any form of "cupping" which allows for a greater exportable yield.

Disease package:

- Resistance to Powdery Mildew.
- Field resistance to Ascochyta.
- Fusarium tolerant

TRIAL DATA

Maturity	Late
Pod Length	9-10 cm / 3.5-4"
Pod width	22 mm
Pod color	Dark Green
Plant type	Climbing / Trellis
Disease package	PM / A / F1

Trial data are based upon laboratory observation and commercial trials in many different countries. Results and characteristics are influenced by many environmental conditions and local practices beyond our control. There is no warranty for yield and quality.

Holland-Select b.v. is a privately owned seed company based in the Netherlands, we started early 1900. We run a research, maintenance, production and sales program of PVP-varieties. The production is a worldwide operation. We are also certified to produce and handle organic seeds. The quality of the seeds is checked in our own and official laboratories.

Our breeding techniques are innovative and advanced but our varieties have been developed without using GMO-techniques.

Holland-Select b.v. is a NEN-ISO 9001 certified company. The certificate ensures consistent management and procedures resulting in high quality products.
